

I have been a dedicated listener to K-LOVE Christian Radio for three years. I have truly been served by this radio station in its broadcast of family friendly programming. Never do I have to worry about what is aired if I have children in my car or a work associate. If my K-LOVE radio station (or those in my surrounding community and in other cities where friends and family live) would be displaced by an LPFM broadcaster I believe that it would have a tremendous effect on our communities. K-LOVE provides positive encouraging music as well as helpful commentaries and information for families. This would be opposed to another station that may use air time to ridicule and degrade our community. I do believe as do my family and friends that K-LOVE provides a valuable service to our communities, nation wide.
